HLA GAKUIN

At HLA GAKUIN, in order to improve the Japanese language skills of our international students, we will deepen their understanding of the culture and customs that lie behind the Japanese language and will place importance on their cross-cultural encounters in Japan.

We value the encounter with different cultures in Japan so that students can deepen their understanding of the culture and customs behind the Japanese language and further cultivate their communication skills.

We will do our best to support international students in achieving their goals.
